DETAILED ACTION

This action is responsive to communications: Amendment After Final, filed on 05/14/2004. Claims 1, 12, 41-44 are allowed.

Allowable Subject Matter

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Claims 1, 12, 41-44 are allowed.

The following is an examiner's statement of reasons for allowance:

In independent claims 1 and 12, the limitation of "collecting a plurality of counts related to a probability of each search rule locating the target record..., wherein at least one of the collected counts corresponds to a number of instances that a search rule retrieves one or more records as possible matches to the target record, or to a number of instances that a search rule retrieves a record previously retrieved by a previously executed search rule, or to a number of instances that a search rule retrieves a record that was not retrieved by a previously executed search rule, or to a number of instances that a search rule retrieves a plurality of records wherein the plurality of records are subsequently determined to correspond to the target record, or to a number of records of the plurality of retrieved records determined not to be the target record", taken with the other limitations of the claim, were not disclosed by, would not have been obvious over, nor otherwise fairly disclosed by the prior art of record.

In independent claims 41 and 43, the limitation of "

calculating the probability of each search rule locating the target record ..., where calculating the probability further comprises calculating a percentage of rule firings in which a corresponding search rule finds a possible match", taken with the other limitations of the claim, were not disclosed by, would not have been obvious over, nor otherwise fairly disclosed by the prior art of record.

In independent claims 42 and 44, the limitation of "calculating the probability of each search rule locating the target record..., where calculating the probability further comprises calculating a percentage of possible matches found by a rule, wherein the possible matches are determined to be actual matches", taken with the other limitations of the claim, were not disclosed by, would not have been obvious over, nor otherwise fairly disclosed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
